摘 要

繪畫藝術的表現是將空間、時間的感覺移位置平面上,在交疊結構內容中,「創作」與「空間」、「時間」是不可分離的。視點移動將對象平面化的矛盾, 追求形體的分解,是物化立體的基本形式訴求目標;再加上導入時間與動感後的 速度美感,及對原色、原質材及圓、方體的熱愛與讚美,將既有的式樣中取局部, 再組合成新的形體。對『既有』物體可以另有新用或另有新意,同時強調『形』 的重疊。

本篇論文『隨情·隨緣·隨性·隨興』是筆者嘗試以分割、重疊、組合、分析、變形、融合等方式來表現真實與錯覺的立體攫取。瓶花、各項靜物等題材來表現「時間」與「空間」共存的重點,並以「激情」、「生命」、「時空」等系列為創作內容的探討,將光源、色彩、線條、空間結構以及各種造型的分析作為個人創作的重要嘗試。

論文架構共分五章。簡述如下:

第一章『緒論』,包含「創作的研究的動機與目的」、「研究的範圍與方法」 及「研究的內容與結果」。

第二章『藝術的真諦』,內容為「美的真意」、「自然的模仿」、「題材的 抉擇」。

第三章『創作學理依』,探討「線條之韻味—剛、柔、曲、直」、「色調之和諧性—律動的和諧性」、「立體分割之剖析—解構物象」、「未來主義之探討—時、空元素之注入」。

第四章『創作理念分析與實踐』,分析後立體畫派之「空間架構」、「透視」、「筆法與色澤」及「實踐成果之展示」。

第五章『結論』,分為「創作省思與展望」及「結語」兩個部分。

關鍵字:中階主義、立體主義、後立體派、未來主義

Abstract

The expression of art painting is to transfer the impression of time and space into two dimensions • For overlapped art construction contents, "creation", "space" and "time" are

inseparable \circ Visual movement brings flat object contradiction \circ seeks form analyzing \circ and is the goals of simplify three dimensions \circ In order to obtain a new form from the original figure \circ art painting involves aesthetic of time and speed \circ enthusiasm of the prime color and material \circ Thus \circ art painting creates another new function or idea from existing object \circ and emphasis "form" overlapping \circ

Accords to the art concepts of dividing 'overlapping 'consisting 'analyzing 'transfiguring and combining ', the author presents reality and illusion of art painting \circ From this thesis: At Emotion's Will ', At Fate's Will ', At Temperament's Will ', At Interest's Will ', we can see the still life objects present the idea of time and space coexistence \circ The author also researches the art series of passion ', life ', time and space to apply on her creations; these attempts are prime elements for this thesis \circ

This thesis consists of five chapters, the recapitulation are as followed:

Chapter One: $\[\]$ Introduction $\]$, $\[\]$ research Motivation and Purpose $\]$, $\[\]$ research Limitation and Approach $\]$ and $\[\]$ research Content and Result $\]$.

Chapter Two: $\[\]$ The Reality of Art $\[\]$, $\[\]$ The True Aesthetic $\[\]$, $\[\]$ Nature Imitation $\[\]$, $\[\]$ Theme and Material Decision $\[\]$

Chapter Three: $\[\]$ Creation Theory $\[\]$, $\[\]$ Line; Rigid, Soft, Curve, Straight $\]$, $\[\]$ Color: Rhythm Harmonious $\]$, $\[\]$ Three-Dimensional Dividing: Re-construction $\]$, $\[\]$ Futurism: Time and Space Elements $\]$

Chapter Four ${}^{\ }$ Creative Idea Analysis and Implement ${}_{\ }$ Cubism ${}^{\ }$ Space Construction ${}_{\ }$ ` Perspective ${}_{\ }$ ` ${}^{\ }$ Technique and Tint ${}_{\ }$ ` ${}^{\ }$ Research Result ${}_{\ }$ °

Chapter Five: ${}^{\mathbb{F}}$ Conclusion ${}_{\mathbb{J}}$, ${}^{\mathbb{F}}$ The Creator's Realization and Future Development ${}_{\mathbb{J}}$, ${}^{\mathbb{F}}$ Conclusion ${}_{\mathbb{J}}$.
